Should run better than forseen with such a strong power rating - definite wager. Joseph Musarro 's ROI with this horse (+ 98%) automatically make them a desirable contender. Difficult to figure this one winning after finishing near the back last time.

⚠ Could be right here at the finish based on sound results of the trainer (7 starts, 43% wins) with recent claims. ⚠ This entrant hasn't had nary a morning drill after running so well last time out. ⚠ Just not worth playing - trainer not winning many races recently.

⚡ This horse hasn't had even a single blow out after running so well last time out. 🤝 The jockey and conditioner duo have a positive return on investment when they combine forces.

 ☹️This runner hasn't won in his last ten chances - he's probably not worth the value today. ☹️Didn't finish near the front of the field last event - might have to expect the same result. ☹️Emily Szczepanski has not gotten the best out of this gelding (6 starts, 0% wins).

Marco Ibarra's ROI with this horse (+19%) automatically make them a superior contender. This rider and conditioner have a lucrative return on investment when they unite. Don't see him as a sure thing after that last event.

Have to be uncertain about any horse that has added front bandages in the last event. This racer coming off a solid effort in the last month or so is definitely live. Jockey's recent ROI data (8 starts, +90% ROI) with this gelding make a decent bet.

Trainer is on a losing streak - hard to stand behind. Tread lightly with this animal - connections have been a bit cold when teaming up. Tough to bet on a horse that loses so frequently.

This horse coming off a good effort in the last 30 days is definitely live. Have to be leery with horses trained by Ricardo Bailey right now - on a chilly streak. Can't make a habit of betting on horses that rarely win.

Trainer has not produced the best results in this group of horses with horses moving up in class (53 starts, 8% wins, -67% ROI). Won easily in that last race. Tough to support any entrant that runs as well as she did, then lays up and doesn't workout.

Shins may have some problems since they added wraps in the last race. Trainer figures with horses off the layoff have not been good (35 starts, 6% wins, -70% ROI). Didn't display much fortitude during the stretch drive last time - be cautious with her.
